REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-10 recite a non-volatile memory device comprising a flash memory having a plurality of banks and a bank selection register which can take on states at least equal in number to the number of the banks and which outputs a signal for pointing out one of the banks corresponding to one of the states; and a controller having a plurality of data buffers, each of which corresponds to one of the banks, respectively, wherein the controller transmits the data in the data buffer to the data register of the one bank, while the flash memory writes the data held in the data register of another one of the banks to the memory cells thereof.

The prior art does not teach at least the above limitations recited in claim 1. Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
